sanjaypathania0@gmail.com
www.sanjaypathania.in
HSR sector 1,Bengaluru

SKILLS

- AWS cloud
- Load balancer (ALB,NLB,GWLB)
- Transit gateway, VPN,Direct connect
- Route 53
- Cloud formation
- S3
- C++
- HTML & CSS

EDUCATION

B.Tech – Electronics and
Communication

Institution – Sri Sai college of
Engineering and Technology
(Punjab Technical University)

COURSES

AWS Solution Architect Associate
AWS System Administrator

CERTIFICATION

Certified AWS Solution Architect Associate

PROJECTS

Establish connection between ON prem
and AWS infra through VPN peering

SET up Lifecycle management for S3
objects

SET up of TransitGateway for
communication between private
Resources in VPC

PROFILE

Results-driven AWS Cloud Engineer with over 5 years of experience in designing, implementing, and managing cloud-based infrastructure and services on AWS. Adept at building scalable, secure, and high-availability architectures using core AWS services including EC2, S3, RDS, VPC, IAM, CloudFormation, and Lambda.

WORK EXPERIENCE

JARP

AWS cloud engineer

19th Feb 2024 -20th Nov 2024 , Noida

- Designed, deployed, and managed scalable and highly available infrastructure on AWS using services like EC2, S3, RDS, Lambda, and VPC, VPC peering
- Managed backups, disaster recovery, and high availability architecture across regions using services like S3 versioning, Cross-Region
- Implemented serverless solutions with AWS Lambda, API Gateway, DynamoDB, and Step Functions.
- Monitored infrastructure using CloudWatch, CloudTrail, and AWS Config; implemented proactive alerts and log analysis.

Simplilearn

SR inside sales Specialist(cloud
consultant)

15th Nov 2022-12th Feb 2024 , Bengaluru

- Proactively reach out to potential customers through cold calls, emails, and follow-ups to generate qualified leads.
- Assess customer needs and recommend tailored cloud solutions based on their requirements.
- Conduct virtual consultations and product demonstrations to educate customers on cloud program features and benefits.
- Handle the full sales cycle, from prospecting to closing deals, ensuring an exceptional customer experience.

Burfee Solution

IT engineer

5th jan 2018- 24th Aug 2022 , Jammu

- PROJECT CHENANI NASHRITUNNELWAY LIMITED
- Managing Microsoft Active Directories and Networking equipments.
- Managing backup and disaster recovery in AWS CLOUD
- S3 Storage Solutions: Set up and optimized S3 buckets for data storage, ensuring reliable and scalable storage solutions for large datasets, while implementing lifecycle policies to automatically transition objects to cheaper storage classes like S3 Glacier for long-term archiving. Backup Strategy & Disaster Recovery: Designed and implemented automated backup strategies using AWS
- Backup and S3 Versioning for critical data, ensuring compliance with disaster recovery plans and reducing the risk of data.
- Snapshots Management: Utilized EBS snapshots to create backup images of EC2 instances, enabling quick recovery and facilitating cloning of environments for testing purposes. Managed snapshot schedules and cost optimization through automation.
